REACH Declaration

The new EU chemical regulation REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals; EC No. 1907/2006), which entered into force on 1 June 2007.

DrayTek is a supplier of "articles" as defined in REACH. DrayTek products do not contain the substances that are intentionally released, nor do the products contain Substances of Very High Concern (SVHC) over the critical concentration published on October 28, 2008.

While our products do not currently fall within the scope of REACH's Article 7.1 and Article 7.2, we will continue to monitor the EU regulation for changes that may require our attention, including the possible need under Article 33 of REACH to inform product recipients and consumers if an article contains critical weight per particle of any substance that is added to the SVHC candidate list in the future.
